SMART COMPETITION IN SOME OF THE BRANCHES.

The board of public works last evening opened bids for improvements, the aggregate cost of which will be \$283,592.99. The contracts will be awarded this morning.

As usual, P. J. Moran captured all the paving work, although he had competition for the first time in months in the Barber Asphalt company.

James Kennedy and Davis & Heuser were the lowest bidders on the sewer

S. Birch carried off the only sidewalk extension and will be awarded the contract today. The city's portion of all the work bid on will be only \$14,000, for as in the paving the city's portion is practically eliminated, except for grading, because the intersections have already been completed. In the sewer work the city pays nothing and on the sidewalk job it pays only for the intersections and half the grading,

BUILDING WORK

Nearly \$300,000 Involved in Inspector's Report Shows 130 Permits Issued for the Month of April.

> That Salt Lake City is prospering is shown by the monthly report of A. B. Hirth, building inspector, made yesterday, which indicates an unusual activity in building circles.

During the month Mr. Hirth issued 130 permits for all kinds of structures, the proposed improvements aggregating \$381,-000 in value.

Compared with April, 1907, the record is most remarkable, as during that month only seventy permits were issued, involving an approximate expenditure of \$178.000.

Mr. Hirth says that there are a very large number of small homes being built, many of them by people who have come here within the past few years and have decided to make Salt Lake their home. The greatest activity is on the north and east benches and in the southeastern seceast benches and in the southeastern section of the city.

tion of the city.

The whole city, however, is affected and there is hardly a block in which some building is not being done.

Another evidence of the building activity is shown in the report of J. W. Farrell, plumbing inspector. As a rule the busiest month for this official is in September, and the record of the office was made in September, 1907, when eighty-five plumbing permits and sixty-eight sewer connection permits were issued.

Each month of 1908 has beaten this record so far and during April 151 plumbing permits and 126 sewer connection permits were issued by the inspector.

AGED FOLLOWER OF BOSS TWEED AT THE END OF HIS TETHER

Ned Harley, Who Once Owned Twenty-one Saloons in New York and Brooklyn, Goes to Jail in Default of \$10 Fine for Drunkenness,

New York, was among the prisoners who were led into the police court yesterday morning. He had been arrested for drunkenness. As he had been before Judge Diehl for the same offense several times he was fined \$19. Nobody appeared to pay the old man's fine and he was taken to the city jail.

Harley is now 72 years of age. He is the father of Edward J. Harley of 133 South Fifth East street and has lived in Salt Lake for fifteen years.

Salt Lake for fifteen years.

Like all of the other politicians who flourished during the Tweed days, Harley had his period of great wealth, but, like the others, he saw his money melt away

the others, he saw his money melt away and is now old and poor.

Harley was an alderman from the Fourth ward in New York in 1864 and 1865. He was an intimate associate of both "Boss" Tweed and "Boss" Kelly.

At one time Harley's fortune was estimated at \$500,000. He says that he owned nineteen saloons in the city of New York and two in Brooklyn. In addition to this he says that he owned the old Adriatic hotel at One Hundred and Twenty-fifth street and Eighth avenue, New York. In 1868 Harley left New York and went to Stratford, Canada, where he lived for some time. Then he returned to New York and later drifted west. York and later drifted west.

Pleads for Discharge.

In the police court yesterday the old man pleaded with Judge Diehl to discharge him. "I did take a drink." he said, "but I am an old man. Whisky goes quickly to my head. I did not intend to get drunk."

He had made the same plea more than

once. Remembering this, Judge Diehl sentenced him to pay a fine of \$10 or spend ten days in jail.

Harley is a well preserved old man, with a white mustache and ruddy cheeks.

Age has not bent his tall figure or
dimmed the keenness of his eyes. His
appearance was unlike that of the other offenders who sat upon the benches with him. He bore the stamp of a man who had once been a conspicuous figure among

men.

"In my time," said the old man, reminiscently, when seen in the city jail, "I have made a barrel of money. It is all gone. Now I am old, broken in fortune, and I suppose I will be left to rot in this jail for ten days. But such is life," he added, with an effort to be cheerful. This was seen by John L. Seary. Both of these witnesses testified in the police court yesterday. After hearing the evi-

In the complaint it is alleged that Grit-ton stole the harness on April 18. That was because April 18 was the only day in

some time that Gritton was not techni-cally a prisoner in the city jail. But he

could have stolen the harness while "in jail," as he was a "trusty" and was in the streets much of the time.

April 18, he said, but it might have been a few days earlier or later.

Assistant City Attorney Edgar A. Rogers said that, in his opinion, Judge Diehl should have compelled Gritton to offer evidence in defense, as the harness taken from him by Williamson had certainly been stolen.

Mr. Mayer left the police court with a lowered opinion of the Salt Lake method of dealing out justice to offenders.

"I am now too old to have much hope of raking together another bunch of

money, big or little."

Harley says that he left New York when "Boss" Tweed was in the zenith of when "Boss" Tweed was in the zenith of his power. A few years later Tweed's methods were exposed and the fight upon the Tweed ring began, ending only when Tweed and his followers were forced from power and the dethroned "boss" fled from New York, to be captured in Spain and returned to the city in which he had exerted such a dangerous influence. He died in Ludlow street jail in 1876.

Burglar Arouses Neighbors, but Tige Sleeps On-Shots Fail to Stop Fugitive.

Although arrested by a police detective and charged with larceny, William Gritton, a former trusty at the city jail, was provided with a lawyer by a policeman, and the result was one of the most curious trials that have yet amused those who seek diversion in the police court. The police say that the watch dog of H. C. Bellinger of 35 South Fifth East treet was loafing on the job last night.
About 9 o'clock the occupants of t house north of the Bellinger residence saw a prowler pry open the screen of a parlor window and raise the sash. Realiztestimony was unnecessary, as the evidence of Mr. Williamson and Mr. Seary ing that the man was a burglar, the neighbors made a demonstration and the was sufficient. I cannot understand how man ran away.

The police were notified and Policemen Johnson and Cassidy hurried to the Bel-linger house. Policeman Johnson climbed brough the window that had been raised by the burglar and struck a match. Mr. and Mrs. Bellinger were away from the house at the time of the burglar's un-welcome visit and did not return until the excitement was over.
